

# Getting Started with Moodle

- 1) First, if not already installed, download the recommended browser: **Google Chrome** - <http://www.google.com/chrome> – You can NOT use Internet Explorer with Moodle. If you chose to do so, you risk your assignments and/or quizzes timing out or not submitting.
- 2) Log into Moodle with your LSUA username and password at <http://moodle.lsua.edu>.
- 3) Next, you will select the course name in which you want to enter. If you log in, and you do not see the course, this does not mean you are not registered. The class will only appear on your schedule once the professor has made the class viewable. Simply email your professor to ask when they class and materials will be available.

The screenshot shows the Moodle interface. On the left is the 'ADMINISTRATION' menu with options like 'Front page settings', 'Turn editing on', 'Edit settings', 'Users', 'Reports', 'Question bank', 'Legacy site files', 'My profile settings', and 'Site administration'. On the right is the 'My courses' section, which lists two courses: 'Moodle Faculty Training Course 201' and 'Moodle Faculty Training Course 101', both with 'Instructor: Heather Williams'. A red arrow points to the 'Moodle Faculty Training Course 201' entry.

The screenshot shows the Moodle login page. At the top is the 'MAIN MENU' with links like 'First time Using Moodle?', 'Faculty User Guide', 'Using the Gradebook', 'FAQ', 'Using Moodle Book', 'LSUA Library Resources', 'Microsoft Office Compatibility Pack', 'Site news', 'Open Office (Free)', 'MS Office 2013 for Students', 'Java Runtime Environment (JRE)', and 'Career Resources'. Below is the 'LOGIN' section with a 'Username' input field, a 'Password' input field, a 'Remember username' checkbox, a 'Log in' button, and a 'Lost password?' link. A red arrow points to the 'Username' input field.

- 4) Once inside the course, you will be presented the elements either on a weekly or topic schedule. There are five main elements in the course that students should be aware of: Grades, Activities, Assignments, Learner Support, and Activities.
  1. **Grades** – Here you will be able to check your current standing in the course along with a list of assignments. Depending on the grading aggregation, your class may be passed on total points or percentage. Please refer to your course syllabus for more information in regards to the grading policy.
  2. **Activities** – Under the activities section, you will be able to go directly to a particular type of assignment; for example, quizzes. Depending on the instructor, you will be able to see the date the assignment is due along with your submission status.

3. **Assignments** – In the central column you will be provided the resources for the course. This could include: reading assignments, URL's, documents, videos, and quizzes.
  - i. To submit an assignment, select “Add Submission”. Next you are able to select “Add” or the drag-and-drop feature is also enabled.

### Chapter 1 Vocabulary - Due by July 20th

Please type and submit Chapter 1 Vocabulary in a Word document.

#### Submission status

Submission status	No attempt
Grading status	Not graded
Due date	Monday, July 20, 2015, 11:55 PM
Time remaining	25 days 12 hours
Last modified	Thursday, June 25, 2015, 11:02 AM
Submission comments	▶ Comments (0)

4. **Learner Support** – This will take you to our student portal for LSUA. Find information about: Noteworthy events, Academic/Financial Resources, Technology Resources, Student Safety, and Student Support.
5. **Quickmail** – With quickmail, you have a custom directory that will allow you to contact your classmates and/or professor within your course. There is no need to log into your regular email account. There is also the ability to attach documents so you are able to communicate more effectively.
